

You can find your inspiration in the work of the master of collages, Karel Teige.

*Karel Teige: No name, 1947, collage*

Karel Teige (1900–1951) was a Czech art theorist and versatile visual artist. Among other things, he created collages using photographs. He used coincidence when creating them. He especially enjoyed playing with a woman's body, to which he added interesting details. Like here, look: he cut out woman's legs in stockings and added fighter planes to them.

WHAT YOU  
WILL NEED

old magazines, leaf-  
lets and newspapers,  
scissors, paper glue
